

Gehring Mechanical committed to keeping you informed about our response to COVID-19. The health and well-being of our Staff and Customers is always a top concern. Gehring Mechanical is following the COVID-19 guidelines provided by Montgomery County Health Department and the Centers for Disease Control to aid in prevention. We will continue to monitor recommended action from these agencies, as we continue servicing our Customers in Berks, Chester and Montgomery Counties.

What Gehring Mechanical is doing:

Precautions

- We are encouraging our staff who are either ill or think they may be ill to stay home and seek medical care.
- We have placed additional hand sanitizer throughout our building and vehicles as well as instructions about healthy hygiene measures.
- We have increased the frequency of cleaning throughout our building with particular attention to high-traffic areas and commonly touched areas such as door handles.
- We are recommending that all Employees wear gloves when entering a Customer's home or facility.

We encourage everyone to help prevent the spread of respiratory diseases like COVID-19:

- If you as a Customer are feeling unwell, please reschedule your appointment or wait to schedule an appointment until you are better and/or cleared by a health professional.
- Stay home if you feel unwell, except to get medical care. If you have a fever, cough and difficulty breathing, seek medical attention. Call your health care provider in advance to allow them to quickly direct you to the right health facility. This will also protect you and help prevent spread of viruses and other infections.
- Regularly and thoroughly clean your hands with an alcohol-based hand rub or wash them with soap and water for at least 20 seconds.
- Clean and disinfect frequently touched objects and surfaces.
- Avoid close contact with anyone who is sick, coughing or sneezing.
- Avoid touching your eyes, nose and mouth.
- Follow good respiratory hygiene. This means covering your mouth and nose with your bent elbow or a tissue when you cough or sneeze. Dispose of the used tissue immediately.

Stay connected:

Our actions may change as this situation evolves. Gehring Mechanical is committed to providing you with timely and accurate updates on the best recommendations and guidance from our public health authorities. We will continue to update this page as more information

becomes available. You can also stay informed on the latest developments by monitoring these:
